

Pomegranate Seed Oil: روغن دانه انار

Pomegranate Seed Oil (PSO) is an extremely rich oil and a well-known source of valuable compounds, which is used for its cosmetic and medicinal properties.

It is made from the seeds of a pomegranate. The oil is often cold-pressed from the seeds and then used in oils, serums, or creams.

Pomegranate Seed Oil is a rare source of Punicic Acid and CLA (conjugated linoleic acid). It's remarkable for the skin and has numerous nutritional benefits.

It is known to contain high levels of vitamins, minerals, and omega fatty acids. They protect your skin against free radicals, reducing the visible signs of aging caused by sun damage and exposure, such as wrinkles and fine lines.

Pomegranate seed oil protects the skin cells from oxidative damages through its antioxidant properties, thereby giving the skin a young and beautiful appearance.

Botanical Name: Prunica Granatum

INCI Name: Prunica Granatum Seed Oil

Commercial Name: Pomegranate Seed Oil

Country of Origin: Iran – Tabriz

Brand Name: Nice Life

Plant Parts: Seed

Purity: 100% pure and natural

Extraction method: Cold press

Extraction method: Produced by cold press of ripe pomegranate seeds

Characteristics: Active Ingredient Oil, Omega 5 – Punicinic Acid

Description: Cold Pressed, 100% Pure, Unrefined, All natural, Organic, Nothing added or taken away, Non-GMO, No parabens, No fillers, No additives or added fragrances
